Exchange study in Singapore

- 2017/08/03~2017/12/19 (5 months)

- Exchange Study in NUS(National University of Singapore)

- Scholarship: ￥150.000 per month(×5)

About Singapore

- Got dependence from Malaysia in 1965

- City country

- Area: 719.1 km2 (= 23 wards of Tokyo)

- Population: 5,610,000

- Always hot(Average temperature: 26~27℃)

- English(Singlish)

- 2 years of military service

- No freedom of speech

Singapore life

- Clean country

  - Not allowed to chew gum

  - Not allowed to eat and drink in train

- Alcohol is expensive(Only sell from 7~22)

- Medical expense is expensive

- Car is expensive(100.000$~)

- Dining-out culture

- Gender equality

- Almost people live in apartment(not house)

- A night person

Why I did exchange study and chose NUS

- Exchange study in Denmark(2015/08/22~2016/06/10, 10 months)

- 4 Goals

  - ✓ To know about foreign people

  - ✓ To learn Environmental Engineering in Denmark

  - ✓ To learn Development assistance in Denmark

  - ✓ To speak English

- Research in Sri Lanka(2016)
  →Want to know more about Asia

- Why Singapore? Because I can look at Asia with a wide view.
- Why NUS? Because I want to go a University(Not technical)
- Goal : "**To know more about Asia**(and improve English) "

About NUS

- Top university in Asia

- Too big (1.5 km^2)(Oookayama campas:0.24 km^2)
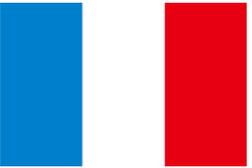

- Many foreign students
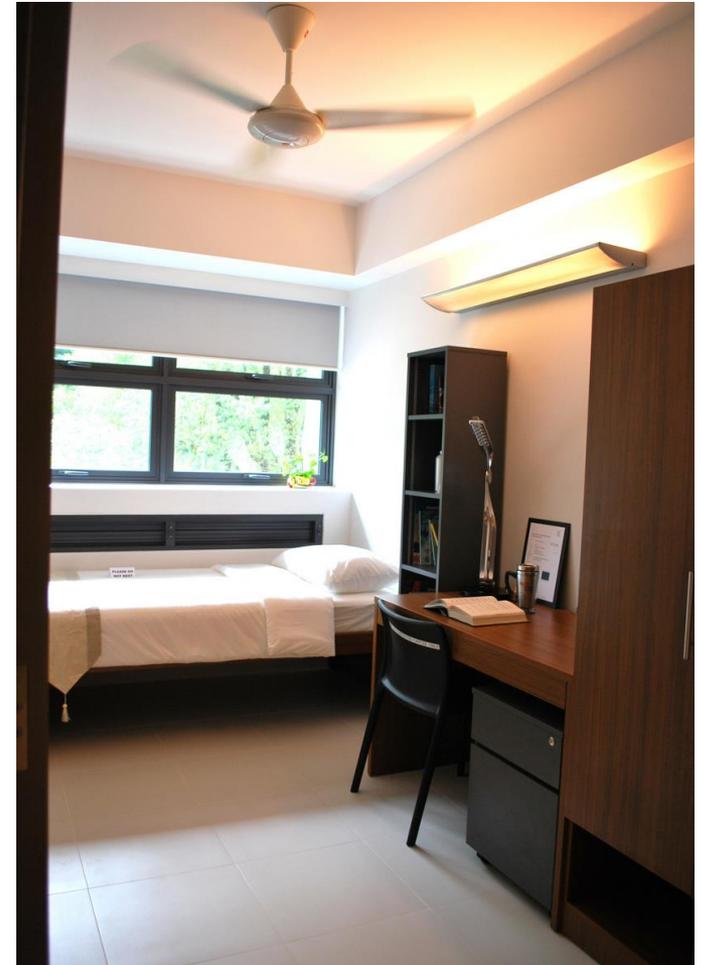

University Town

Well equipped student town

- Swimming pool/Gym
- Supermarket
- Bookshop/Sport shop
- Drug store
- Hair salon
- Cafe(24 hours)
- 2 School canteen

And, a lot of study space

Accommodation:19th floor

Class schedule

	Mon	Tue	Wed	Thu	Fri
12:00					SE3227
14:00	No class				
16:00		SE4217		SE3227	
18:00			CE5203		TP5027
20:00					

Civil and Environmental Engineering (Master)
CE5203 Traffic Flow & Control (4 credits)
TP5027 Transport & Freight Terminal Management(Audit) (4 credits)

Southeast Asian Studies(Undergraduate)
SE4217   Southeast Asia in the Global Economy(5 credits)
SE3227   Maritime History and Culture of Southeast Asia(4 credits)

CE5203 Traffic Flow & Control

- Civil and Environmental Engineering class(Master)

- Weekly class lecture(3 hours), 5 reports and final exam

- Learn

  - Headways
  - Speed distribution
  - Platoon distribution
  - Shock Waves
  - Gap acceptance
  - Traffic signals
  - Simulation etc.

SE4217 Southeast Asia in the Global Economy

- Southeast Asia Studies(Undergraduate)

- Weekly class lecture(3 hours), 1 reports, 1 presentation and final exam

- Learn
    - Globalization
    - Science and Technology
    - Transnational Organizations
    - International trade
    - Foreign labor
    - Industrial development etc.

- Research paper

"Social impact of smartphone in Southeast Asia"

SE3227 Maritime History and Culture of Southeast Asia

- Southeast Asia Studies(Undergraduate)

- Weekly class lecture and Tutorial(2~4 hours), 1 reports, 1 presentation, midterm exam and final exam

- Marine Archeology in Southeast Asia

- Interesting Tutorials(Museum)

SE5027 Transport & Freight Terminal Management

Food and sightseeing in Singapore

- Food in Singapore is very nice

- Not so many sightseeing spot

Travel

8(7) countries

Interesting things

- Class in NUS was interesting

- Friends(student in NUS) and teachers were serious, but confident, smart, know a lot of things(wide perspective) and interesting

- Learn about people and characteristics of Southeast Asia countries(Include Singapore)

- Japanese I met in Singapore were interesting(Students, Workers, MBA etc.)

Grow up points

- Knowledge about Southeast Asia and wide perspective

- Experience to write a report(not technical)

- A little improve of English

Thank you for listening
